Biden Cancer Community Summit

COLUMBUS, Ohio – Cancer Support Community is responding to Vice President Joe Biden and Dr. Jill Biden’s call to action to double the rate of progress against cancer by joining this nationwide effort on September 21 to host Biden Cancer Community Summits across the country. These Summits are focused on the patient’s journey through the twists and turns from prevention through a cancer diagnosis, treatment, and survivorship.

Cancer Support Community Central Ohio Biden Cancer Community Summit joins hundreds of other Summits throughout the country designed to draw in and learn from the perspectives of the Central Ohio oncology community for a round table discussion about the unmet needs in our community and how we can each have a part in making sure our community is responding to the needs of those affected by cancer. Cancer Support Community will tap into the Biden Cancer Community Summit at 9 am where we will hear opening remarks from Dr. Jill Biden.

- **WHEN:** September 21, 9 am – 12 pm
- **WHERE:** Cancer Support Community Central Ohio, 1200 Old Henderson Road, Columbus, Ohio 43220
- **WHY:** We believe this will be much-needed opportunity to meet with others in our community to share stories, best practices, and generate new individual and organizational commitments.

About Cancer Support Community Central Ohio

The mission of Cancer Support Community Central Ohio is to ensure that all people affected by cancer are empowered by knowledge, strengthened by action, and sustained by community. Cancer Support Community programs serve all people living with any type or stage of cancer, from diagnosis through survivorship. We play a vital role in the lives of individuals, their families and caregivers as they navigate their cancer experience by providing them with education and a community of support.

All programs are facilitated by licensed and credentialed facilitators and instructors, are proven to be effective by solid evidence and are offered in a comfortable setting. There is never a fee to attend—all programs and services are provided at **no cost** to ensure that we do not increase the financial burden that often accompanies the cost of cancer care.
